

*w*e've asked local designers **Kenneth Byrd** and **Stephanie Theofanos** to develop a design for a deluxe master bathroom. Their selections show two different ways to achieve a room that's both dapper and pampering.

**DESIGN PHILOSOPHY:**

"Good design is sophistication in its simplest form, with a story to tell and emotion to evoke without the use of a single word."

**EVERY MASTER BATH NEEDS:**

**"A calming sensibility.  
Bathrooms are often the only  
space we can truly be alone  
to escape and recharge."**

**DESIGN TIP:**  
"Mix old and new, high and low. Mix metals, colors, textures and patterns for a style that looks curated over time."
